

Meet Our Customers:

At I Heart Psychics, our Customers come from all walks of life. Anyone from the age of 18 to 88+ could be talking to you at any time of the day or night, seven days a week.

Our Customers could be any age, sex, gender, race, color, creed, or religion. Our Customers could be in any number of different circumstances that we might not have experienced ourselves but they will all be treated with the utmost respect and grace.

The Customers who reach out for our services do so because of many different emotional and spiritual reasons. Some will be angry, some will be hopeless, some will be in emotional / spiritual pain, some will be happy and hopeful, some curious, some need our help, while others will look at the experience as entertainment.

Regardless of why a Customer calls us, our main goal is to have them leave the experience feeling more positive, more hopeful, and more satisfied than when they first called.

The types of topics they will call about will also vary. Some will want to talk about love and romance in all the different categories thereof. Some will want financial and career advice. Some will want comfort because they are mourning a lost loved one or pet. Some will call for emotional support to feel better about themselves in a dark time of low self-esteem and low self-confidence. Some will want positive affirmation or guidance about the path their life is on. Some will simply want to talk to someone because they do not have anyone else they feel they can trust.

Our Customers deserve to know that we are the Company and the people that they can open up to. They need to know that, if they are in need of help, we can give it to them, in an objective, compassionate, nonjudgmental way.
